WHAT IS WAXOYL

**“ Your typical customer doesn't buy a new car every day ”
Protecting it properly, whilst maintaining its value “has to make sense”**

Waxoyl

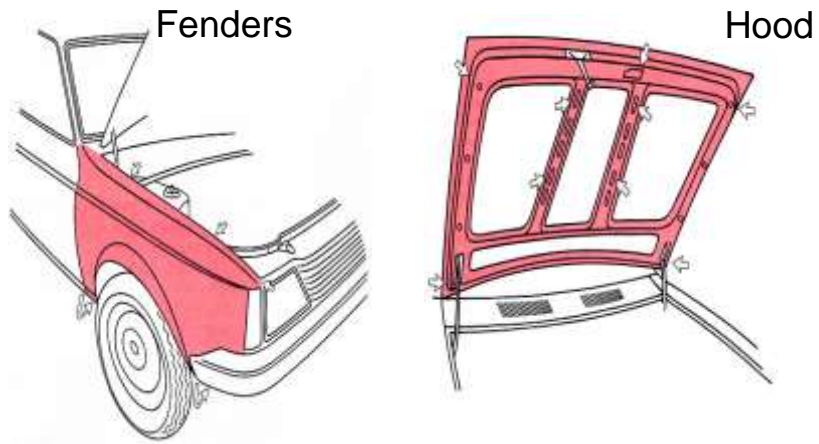

Waxoyl - An auto-preservative treatment that protects cars against environmental influences

Dirt
Rust
UV Rays
Corrosion
Industrial Fall Out

Waxoyl

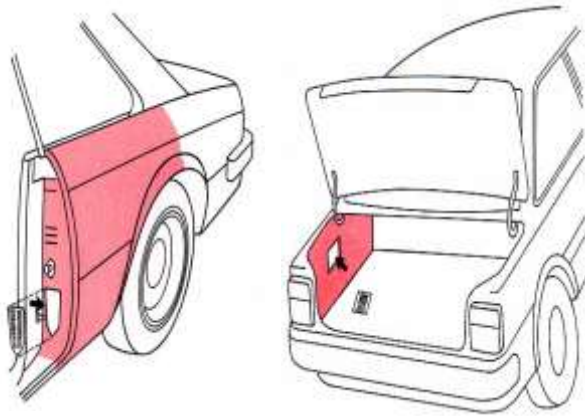

Superior rust protection in all nooks and corners

WAXOYL Professional - Cavity Protector

Waxoyl

Quarter Panels

Superior rust protection
in all nooks and corners

WAXOYL Professional - Cavity Protector

Waxoyl

WAXOYL Professional - Cavity Protector

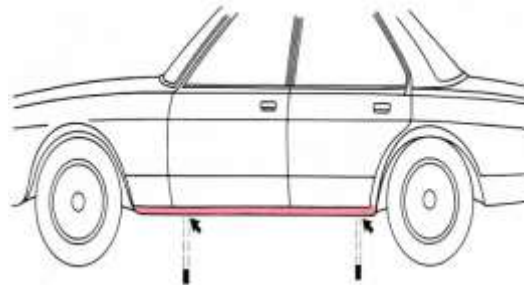

Boot Lid

Doors

Rocker Panel

Superior rust protection in all nooks and corners
Even under surface, frame and cross members

23 11:50PM

23 11:49PM

Waxoyl

HARDWAX Underbody Protector

Super tough wax-base undercoat
Protects underbody against pollutants, stone & gravel
Does not peel, flake or bubble
Prevents rust through perforation
Acts as sound deadener, ensures a quieter ride
Special additives provide superior adhesion and resilience

Waxoyl

100 Plus Paint Sealant

High-polymer content sealant (not an ordinary wax or polish)
Vitrifies to a clear glass-like armour
Seals out atmospheric pollutants, harmful UV Rays
Car paint doesn't fade, appears new

19 7:09PM

Waxoyl

U.P.T. Fabric and leather Protector

Repels stains of tea/coffee, soft drink spills
Invisible barrier prolongs fabric, leather & vinyl life
Fabric's natural texture and appearance is retained

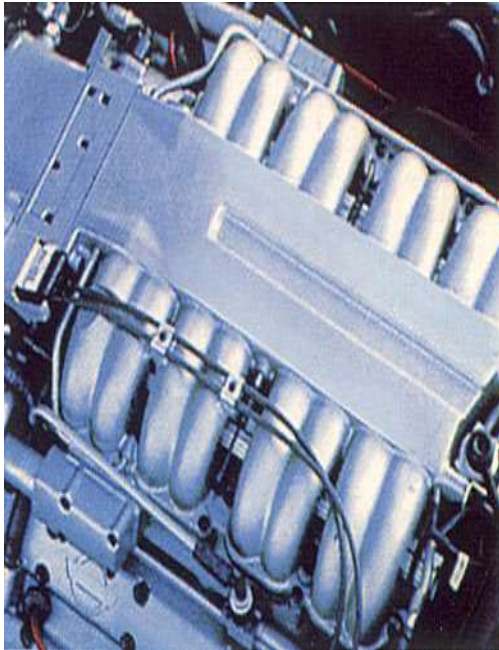

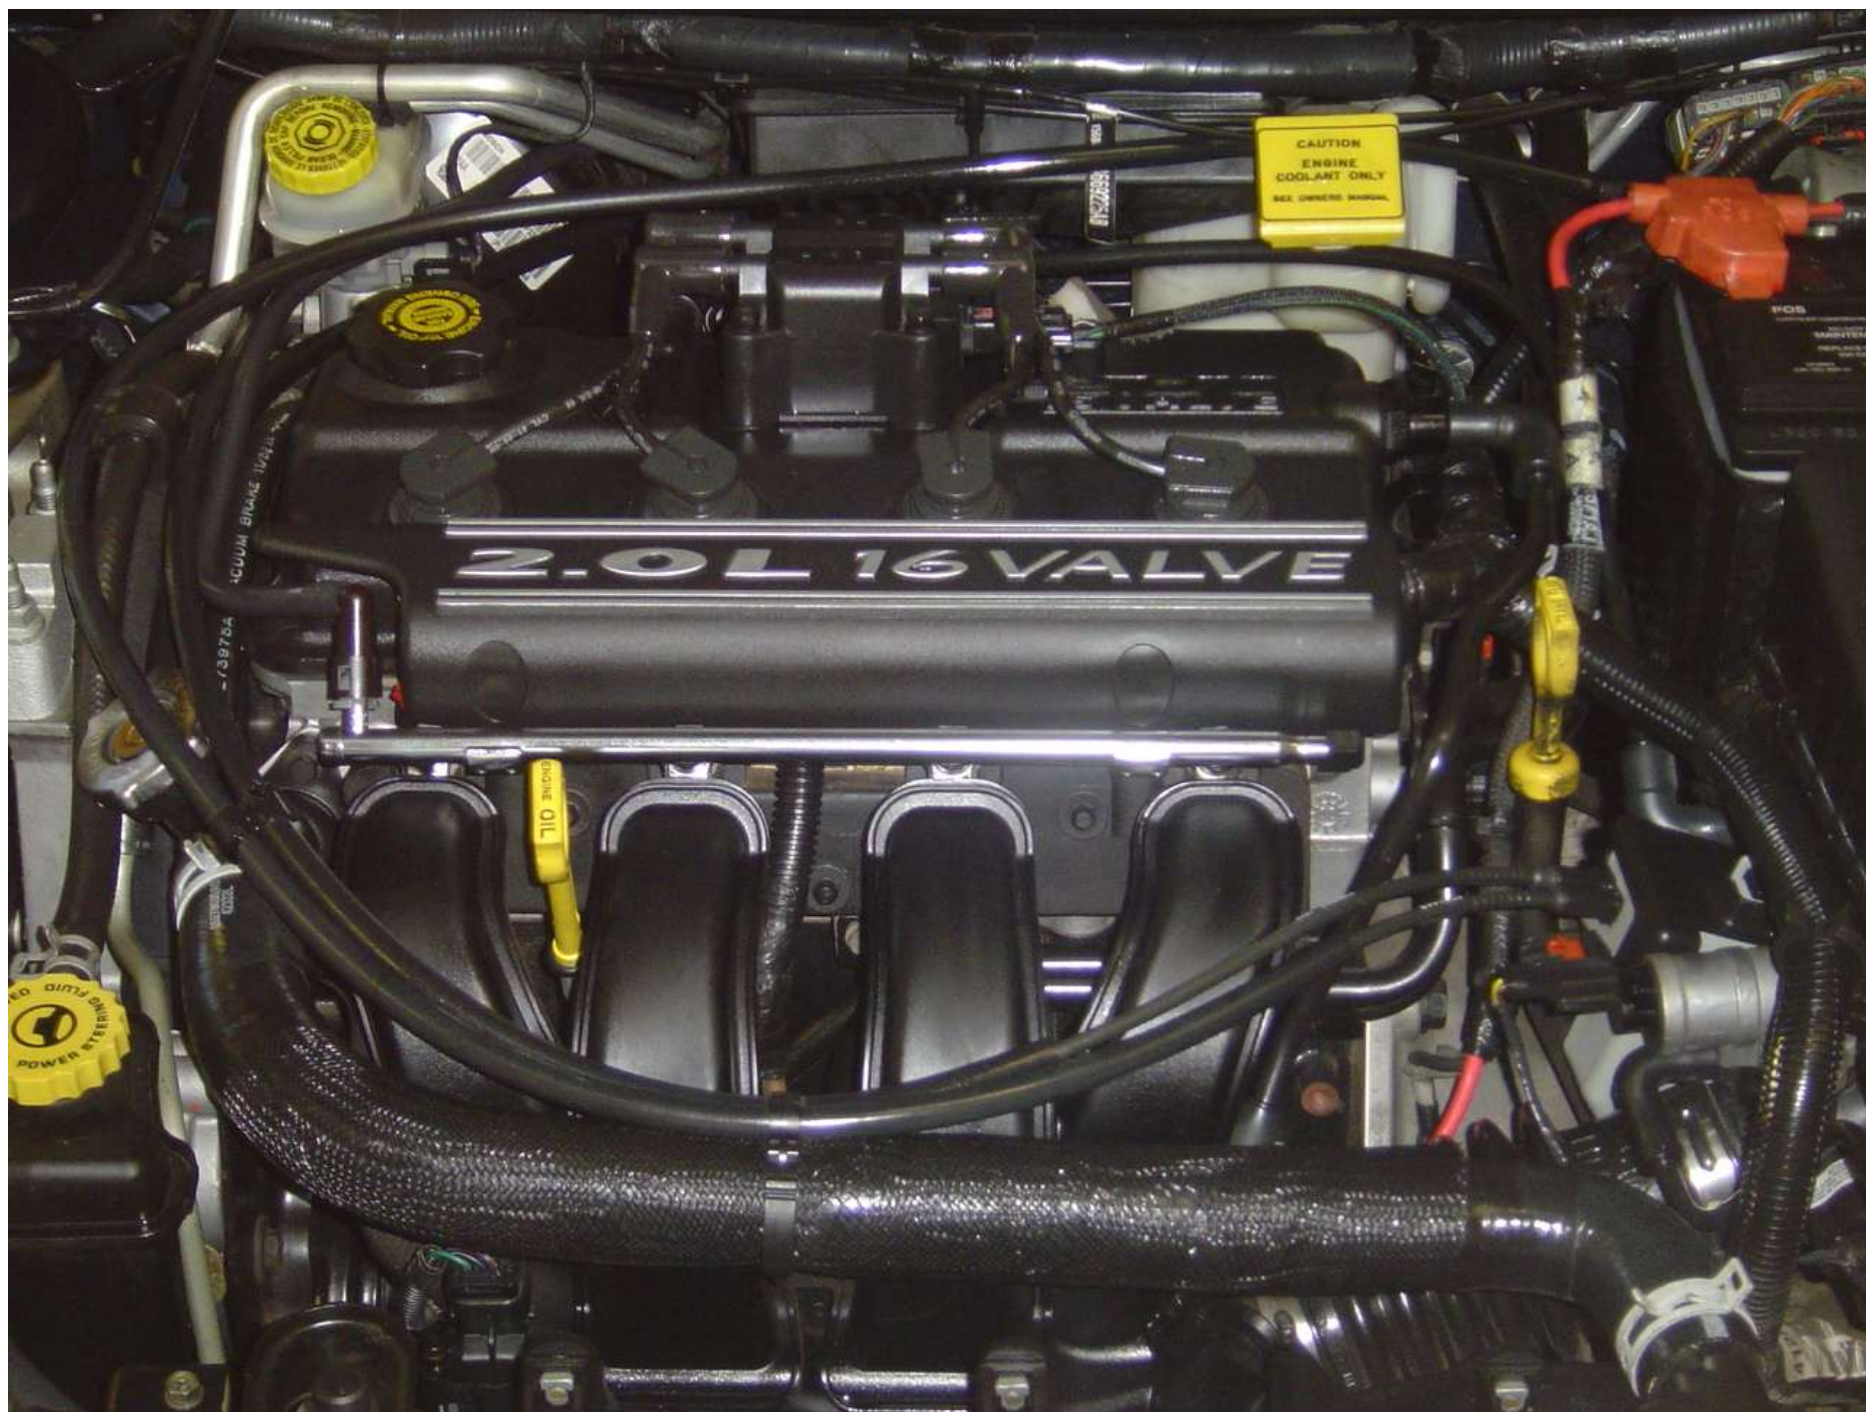

MOTOR CARE - Engine Protector

Protects engine's metals against corrosion
Repels water, keeps away dirt and grime
Engine compartment looks fresh and new

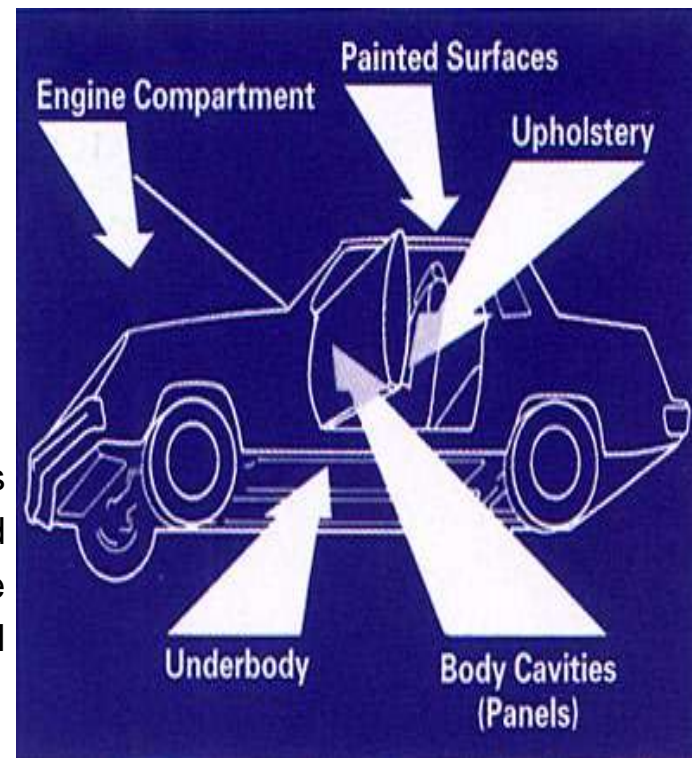

Waxoyl

Operational Advantages

Clean and environmental friendly products
No new infrastructure required

“WHY USE WAXOYL”

- Please note, the following photos are of new vehicles with less than 5000km or unsold vehicles.
- We are not trying to tarnish anyone's reputation or brand
- Purely giving reason why WAXOYL is required.
- Protecting your investment and preventing latent defects or accidents causing deaths.

CRUCIAL SAFETY ITEMS OF THE VEHICLE

A Body of the vehicle could rust and might not look nice, but when it comes to the following items. One's life is jeopardised.

The Floor of a Vehicle, The Chassis, Brake Pipes, Brakes, Hand Brake, Suspension, Drive Train, Prop shaft, Steering, Shocks, CV's, Springs & Wheels. (A brake pipe is not even 1mm thick)
Will your car stop if the pipe rusts through ??
